## DEPARTMENT OF CHEMISTRY AND BIOCHEMISTRY Building 232—PHONE: 805-893-5675

http://www.chem.ucsb.edu College of Letters and Science University of California, Santa Barbara

## Requirements for the minor in CHEMISTRY, 2024-2025

All courses to be applied to the minor must be completed on a letter-grade basis. This includes both courses offered in Chemistry and those offered by other departments and applied to the minor.

## **PREPARATION**

No specific courses are required in preparation for the minor in Chemistry, but students should note that most upper-division chemistry courses include lower-division preparation in chemistry, math, and/or physics as prerequisites.

<u>UPPER-DIVISION</u>	UNITS TO COMPLETE
23 UD units are required, distributed as follows:	
One course from Chemistry 113A-B-C	4
Chemistry 150	3
Additional upper-division units in Chemistry, with no more than one Chemistry 110, 123 and 149	
The following courses <b>will not</b> apply toward the minor: Chemistry 102, 183, 184, 192, 193, 196, 198, and 199	

Substitutions and waivers are subject to approval by the chair of the department.

Students must consult the *General Catalog* for prerequisites to required courses.

The following conditions must also be met for official recognition of the minor:

- The sponsoring department reports completion of the minor prior to the posting of the degree.
- At least 18 upper-division quarter units are completed for the minor. (Waivers cannot reduce the requirement below this number.)
- The UC grade-point average in ALL applicable upper-division courses is 2.0 or higher.
- No more than 5 upper-division units overlap between this minor and the upper-division portion of the major(s) or other minor(s). If overlap is greater with the major(s), completion of the minor will not be formally recognized; if overlap with other minor(s) is greater, only the first minor reported will be recognized.
