

# Research-Prep Mentorship Program

**Interested in Undergraduate Research?** Shadow a graduate student in a research lab setting to get exposure to the research happening in academic labs on campus.

- Give mentees exposure to different fields of academic research on campus
- Focal point is to encourage mentees to pursue higher education and research as a potential career

Mentees shadow different mentors in a rotation-based system

Timeline

Fall Quarter:  
Recruitment &  
Introductions

Winter and Spring  
Quarters: Mentee  
Rotations (4 weeks each)

- Graduate mentors from different labs
- Undergraduate mentees do rotations through 3 research labs of their choice
- Faculty chairs: Dr. Nadia Léonard and Dr. Mercy Anyika

End of year undergraduate infographic presentation symposium.
